

DATA SHEET

DESCRIPTION

Product: Glacial Acetic Acid

Other names: GAA; Acetic Acid

Cas No. 64-19-7

Purity: 99.80%

Appearance: Colorless Transparent Liquid

Origen: China

TECHNICAL SPECIFICATIONS

ITEM	STANDARD
Color	Colorless
Flavor/Odor	Strong Sour like Vinegar
Content (w/ %)	≥ 99.8
Potassium Permanganate Test (Min)	≥ 180
Evaporation Residue (w/ %)	≤ 0.005
Crystallization Point (°C)	≥ 16.20
Pb (as Pb), mg/kg	≤ 2
As (as As), mg/kg	≤ 1

APPLICATIONS

1. Acetic acid is one of the most important organic acids. Mainly used in the production of acetic anhydride, acetate and cellulose acetate, etc.
2. Food grade glacial acetic acid can be used as a sour agent and flavoring agent. It can produce synthetic edible vinegar.
3. Widely used in the textile printing and rubber industry.
4. Solvents and raw materials for the organic industry.

PACKAGE: 30KG Drum
